Impact Model

Executive Summary — Indian content teams spend **₹40,000–₹50,000** and **15+ hours** per product launch on manual drafting, compliance review, and localisation. Yuktiva AI reduces this to **₹222 and 25 minutes** — a **97% cost reduction**. At 50 launches/year, that is **₹20 lakh saved annually** per team. Including compliance risk avoidance, total annual impact exceeds **₹37 lakh** per mid-market company.

ADDITIONAL VALUE STREAMS

Time-to-Market Launch content in 30 min vs 3 business days. In India's D2C and fintech space, first-mover content captures 20–40% more early engagement (Inc42, 2024). Competitive advantage that compounds with every launch. 99% faster	Vernacular Scale Manual Hindi/Tamil/Telugu localisation costs ₹3,000–8,000 per language per launch. Yuktiva AI localises to any language in the same pipeline run for ₹20 incremental API cost — opening 500M non-English speakers in India. 10+ languages
Audit Readiness Every agent action and human approval decision is logged with timestamps. SEBI/RBI-regulated companies reduce compliance audit preparation from weeks to hours. Full trail for every published piece of content. 100% logged	Team Leverage One content executive using Yuktiva AI matches the output of a 5-person team. Replaces a ₹60–80L annual hire cost with ₹1L tool cost. Immediate ROI in Year 1 — redirects talent to strategy and creative direction. 5x output
